

Environmental Policy

TFL Scaffolding Ltd supplies, erects and dismantles scaffolding within the construction industry.

In respect to the activities it can control or expect to have reasonable influence over, TFL Scaffolding Ltd recognises its responsibility for protecting the environment and this policy is a statement of that commitment.

TFL Scaffolding Ltd recognises the need for sustainable development and continually aims to improve the environmental effect of its activities.

To achieve this, we will:

- Comply with the requirements of environmental legislation and other requirements.
- Assess the environmental impact of all current and future activities of our business.
- Continually seek to improve environmental performance.
- Prevent pollution and reduce emissions and waste.
- Reduce the use of energy and supplies.
- Raise awareness, encourage participation and train employees in environmental matters.
- Expect similar environmental standards from all suppliers and clients.
- Advise clients on the efficient use of our products and services.
- Liaise and co-operate with the local community, clients, government, regulatory bodies and other stakeholders.

This policy will be communicated to clients, staff and suppliers and made available to the public.

We will review this policy on an annual basis to monitor its effectiveness and to ensure that it reflects the changing needs and circumstances of our business together with our objectives and targets.

This policy and its associated procedures are to be followed by all employees and others working for or on behalf of TFL Scaffolding Ltd.
